

Devin Fitzpatrick

Junior Vice President

6 February 2023

ASB Report February

POSITION ASSESSMENT

Throughout the past month I have been very busy in my position. The Junior Officers and I began the semester early by beginning Winterfest preparation over winter break. We made the layouts for all the decorations and retrieved the shopping cart from Save Mart. Following this we made a schedule for all Winterfest to dos. We began working on Winterfest after school and on the weekends. Along with the other juniors I made sure to communicate in the juniors group chat about practice times and locations. Along with everything Winterfest I also did my public speech for leadership and presented to the school board with my fellow vice presidents on our *Grateful For Our Origins* project. After winterfest the junior officers also sold class t shirts at the winterfest basketball game and took inventory afterwards. We also cleaned out our spirit box. I also have been working on Valentine's Day hearts as well as my other special committees. Outside of all of this I also participated in the link crew interview and application process as well as worked on my leadership application for the following year.

STANDING COMMITTEE

I am currently not a part of any standing committees.

SPECIAL COMMITTEE

Throughout the past month, I have been a part of the Junior lip sync committee, bleacher decoration committee, shopping cart committee, and window decorating committee. Through these committees I participated in the lip sync and helped organize and coordinate the lip sync as well as coordinated and worked on the bleacher decoration, shopping cart, and window decoration. Along with these, I am a part of the Virtual Jog a Thon Fundraiser, Love Ripon, LDD idea, and the Old to Mini Pillar Project which the other committee members and I have begun working on.

MENTORSHIP EVALUATION

My mentoree and I are doing quite well after this month. I knew from the day we were paired that we would constantly give each other a hard time but I knew that we would both keep each other on top of things, even though I am the elder. When we are in mentor seating we often both help each other with whatever we are doing whether it's our websites, leadership assignments, etc. We had an enjoyable lunch that we went to in which we also discussed this particular ASB report.

CONCERNS

A concern that I have about this class right now is the confusion about the committees in the class. I feel that there are some in this class that are confused about the directions in which they should go to work on this said committee. The committees keep being emphasized to them. I've had some leaders come up to me wondering what they should even do for that committee.

POSITIVE COMMENT

The positive comment that I am giving this report is dedicated to April Yan. April has done such a great job all year at her position and I think this especially shined during Winterfest

as she was the head of a very large week for us and she led us to a successful execution. I also think especially after watching her elder project I saw that although April hasn't always done extracurriculars such as sports she puts so much effort towards the things she does, such as Leadership and Academics. I really feel she did a great job in this program from when she was here and that is why she is my positive comment.

CHANGE

A change that I would recommend in the classroom is something for the future, but less activities for Winterfest. Winterfest is supposed to be a scaled down homecoming, not a repeat of it, and I feel when we have four class competitions to do the classes are stretched thin on the competitions and that leads to deteriorated quality. The competitions would be of higher quality if we focussed more on quality over quantity.

MY IMPACT

I have impacted the world today by serving as a role model on campus and further building my legacy through leadership, link crew, and multicultural club. Through this past month I have been working on applications for both leadership and link crew as I want to continue building my legacy at Ripon High School and continue being a role model for the student body. I also served as a role model, as did all the other junior officers, during Winterfest and working on class competitions. I had to role model a lot during all of these competitions, especially during the lip sync where we had to deal with many individuals outside of the program. And through Multicultural Club I am making sure the club is prepared for the future.
